## About NHL Stenden University of Applied Sciences

Every day, NHL Stenden University of Applied Sciences challenges its students, members of staff and partners to discover and reinforce their talents. This journey of discovery transcends the limits of their own field of expertise and environment.

NHL Stenden University of Applied Sciences does this at its multi-campus university of applied sciences, which is strongly embedded in the region and which has a prominent, international profile. NHL Stenden University of Applied Sciences is always looking for innovative methods and ways to connect the field of work, education and research at its branches, at home and abroad. Students, lecturers and researchers work on real-life issues in small teams and they verify their innovative ideas in practice. Education is in line with the current developments in the field of work.

## Data migration of study progress data

Migration of study progress data of the students of NHL from the Educator source system to the new system Progress Onderwijs.

### Migration key facts

**7,000,000**  
Dossiers migrated

“In the run-up to the project, the Data eXcellence consultant left an indelible impression on me. Like a musician hears music, the Data eXcellence consultant noticed all sorts of links, cross connections and other connections and gaps when he viewed the database tables.”

*Helga Ultzen and Angela Schat, NHL Stenden University of Applied Sciences*
