Helping by doing

About a.s.r.

a.s.r. is the Dutch insurance company for all types of insurance. With 3365 employees and a revenue of more than € 4 billion in 2016, a.s.r. is one of the largest insurers in the Netherlands.

a.s.r. seeks to be a dependable partner for customers and to offer them transparent insurance policies. At the same time, we want to create sustainable, stable value for our stakeholders. We therefore prioritize simple, transparent products, clear communication and treating customers fairly.

Consolidating systems

a.s.r. Bank has chosen to consolidate the savings and securities portfolios from two systems into one. This required the migration of the savings accounts from the Sopra Banking Platform to Idella's BGS system.

Fixed fee migration from Sopra to BGS

The data of over 100.000 savings accounts from Sopra Banking Platform Thaler to BGS (Idella) was migrated. The project was executed based on a fixed fee and was delivered on time. DX has experience with Sopra Banking Platform and partners with Idella. This made the migration straightforward and cost-effective.
