

Kenter Jeugdhulp

About Kenter Jeugdhulp

Kenter Jeugdhulp focuses on children, young people and their educators who need that bit extra. Objective: optimal development opportunities for every child and every young person. Clients and their families can count on specialised educational and psychological assistance for young people aged 0 to 23 with developmental, behavioural and family problems. Assistance and solutions, where it is needed and as close to home as possible.

Professionalisation of the IT landscape

Kenter Jeugdhulp has implemented a new Electronic Client File (ECF) for the professionalisation of the IT landscape and work processes. As part of this implementation, the data from the legacy source systems was migrated to the new ECF.

Main aspects of this migration

70.000

dossiers migrated

Big Bang

single-step data migration strategy

WinCare

from IRIS and JHVIS to WinCare

Result

DX performed the data migration of all files from two source systems to WinCare as the new ECD.
