

Complex financial data migration

Data migration to FOS, Bancos and PPM

In January 2019, a platform was implemented for payment processing and current account administration. Data eXcellence was asked to carry out the data migration of the payment accounts, personal data and payment administration. It concerned a data migration from the source systems Matrix, CICS and ZVS to FOS, BankOS and PPM.

Main aspects of this data migration

40.000.000
Records

21 months
Duration of the project

FOS, Bancos, PPM
Target systems

Result

Within 21 months, Data eXcellence successfully migrated 92,000 personal data, 75,410 accounts and 41,430,490 transactions to FOS, Bancos and PPM, the target systems.
