

Rabobank Lease

About Rabobank

Rabobank is a social bank. Rabobank wants to make a substantial contribution to society in the Netherlands and that is why it focuses on three major global transitions: the food transition, climate & energy transition and inclusiveness. To achieve these goals, they invest part of their profits each year in the local community for a better living environment.

With annual net profits of 2.2 billion Euros (2019), Rabobank Group is the largest financial service provider in the Netherlands. It has its head office in Utrecht.

Data migration from OLM to Forward

Rabobank has asked DX to carry out the data migration of the lease contracts from OLM to Forward. The scope of this project is to perform an automated data migration and it must be possible to perform the data migration in multiple tranches in a controlled and predictable way.

Main aspects of this data migration

40,000

Lease contracts

3 tranches

Data migration in three steps

Forward by Liscor

From OLM and Siebel to Forward by Liscor

Result

Within 28 months, approximately 40,000 lease contracts have been successfully migrated in three tranches from OLM and Siebel to Forward by Liscor.

In this project, we worked together as one team with short lines of communication. This made it possible to switch quickly and little time was lost.

Data Excellence has played an important role for Rabobank in the successful migration of our Rabo Lease portfolio. They have done this in a very professional manner with very knowledgeable employees to the full satisfaction of the Rabobank clients. I can wholeheartedly recommend DX as a reliable, honest and knowledgeable partner in the field of data migrations.

Adri Verwegen, IT Lead Lease Rabobank
